

ONZ Oostkust will organize from November 1 to 3, 2019

OR75CLM

Canadian Liberation March

In Knokke-Heist (Belgium), the liberation in 1944 by Canadian troops, is commemorated annually with various ceremonies, the high point being the march. Many thousands of walkers have participated in the Canadian Liberation march that follows the route that was taken by the soldiers between the Western Scheldt in the Netherlands and Knokke. Since the beginning, ONZ Oostkust has been organizing a special call to commemorate and honor this event.

For the 75th commemoration we propose OR75CLM. The call will be in the air permanently during the weekend of 1-2-3 November 2019 on all possible bands and using various techniques.
